

CME Accreditation

This activity has been planned and implemented in accordance with the Essential Areas and policies of the Accreditation Council for Continuing Medical Education through the joint providership of PESI Inc. and Academic Surgical Congress. PESI Inc. is accredited by the ACCME to provide continuing medical education for physicians.

AMA PRA Designation Statement

The PESI Inc. designates this live educational activity for a maximum of 25.5 *AMA PRA Category 1 Credit(s)*[™]. Physicians should only claim credit commensurate with the extent of their participation in the activity.

International CME

International Physicians are formally eligible for *AMA PRA Category 1 Credit*[™].

Physician Assistants

AAPA accepts Category 1 credit from AOACCME, Prescribed credit from AAFP, and *AMA PRA Category 1 Credit*[™] for the PRA from organizations accredited by ACCME.

SUNDAY, FEBRUARY 9, 2025

1:00 PM – 5:00 PM AAS/SUS Surgical Investigators' Course (SIC): Sage Hall 1 & 2
The Grant Writing Workshop

Join the AAS and SUS for an intensive course designed to support your successful attainment of extramural grant funding.

The course is ideal for:

- Learning the essential elements of a successful research proposal and how funding agencies work.
- Obtaining an insider's view of the grant review process within a study section.
- Garnering feedback and guidance on your current grant proposal.

Who Should Attend?

- Faculty members or soon-to-be faculty members writing their first grant.
- Faculty members writing a career development award or other grant.
- K or other career development awardees looking to transition to and R01 or other major grant.

5:00 PM – 6:00 PM AAS/SUS Surgical Investigators' (SIC) Course Networking Reception The Manor

MONDAY, FEBRUARY 10, 2025

8:00 AM – 5:00 PM SUS Mid-Career Academic Surgery Primrose Hall 5
Professional Development Course (MCC)

The SUS Mid-Career Academic Surgery Professional Development Course will provide personal guidance to develop your leadership skills and a road map for progression for aspiring leaders in academic surgery.

The course is:

- Ideal for mid-career surgeons (5-12 years in practice)
- Designed to ensure interactivity and to maximize course participation by course attendees
- Features updated content and more interactive sessions
- Learn how to identify opportunities and negotiate successful offers
- Discuss the skills and credentials needed to successfully advance your career

8:00 AM – 1:00 PM AAS/SUS Surgical Investigators Course' (SIC): Sage Hall 1 & 2

“Investment Invasion: Private Equity’s Role in Shaping Surgical Services”

Moderator: Adrian Diaz, MD, MPH

Grab your lunch and join this session to delve into the rapidly expanding role of private equity (PE) firms in the healthcare sector, specifically focusing on surgical care. With a growing number of surgical practices being acquired by PE firms, it is crucial to understand the implications of these acquisitions on patient care, healthcare costs, and the overall practice of surgery. This session aims to provide a balanced perspective, featuring insights from leading surgeons, healthcare economists, and industry experts. Attendees will gain a comprehensive understanding of the benefits, challenges, and ethical considerations associated with private equity investment in surgical care.

At the conclusion of this session attendees will be able to:

- Evaluate Data on the increase of PE acquisitions in surgical practices & Financial motivations behind these investments.
- Compare healthcare costs pre- and post-PE acquisition, Impact on insurance, billing practices, and patient affordability.
- Convey evidence-based analysis of patient outcomes in PE-owned practices, Case studies highlighting both positive and negative impacts, Discussion on quality of care, patient satisfaction, and safety concerns.

Introduction

A Program Director’s Perspective (Military)

Byron Faler, MD

Q&A

At the conclusion of this session attendees will be able to:

- Articulate current issues faced by leaders in academic surgery from a variety of institutions and leadership levels.
- Identify similar issues faced by their own institutions and begin to develop strategies for creative solutions to these issues.
- Apply and/or adapt creative strategies employed by others to leadership issues at their home institutions.

1:00 PM - 2:30 PM

SUS Presidential Session:

The Theater

“The Courage to Change Cultures”

Moderator: Thomas Varghese, Jr., MD, MS, MBA

Panelists: Geeta Lal, BS, FACS, MD; Jamie Coleman, MD; Kasper Wang, MD

Being courageous to take on a challenge in a new way, even if you are not sure of success, empowers team members, and is a catalyst towards positive culture change. Changing cultures for the better is difficult to do in the hierarchal world of surgery. In this SUS Presidential session, hear from Academic Surgeon Leaders who have challenged dogma, overcome obstacles and built programs of impact.

At the conclusion of this session attendees will be able to:

- Identify the challenges and successes of cultural change.
- Assess the internal and external drivers of organizational change, such as leadership changes and market drivers, and how best to navigate these opportunities.
- Learn from the stories of a panel of academic surgeon leaders who have built cultures of impact.

“The Ethical Deployment of AI in Healthcare: Maintaining Accountability and Protecting Patient Safety in 2025”

Moderators: Carrie Peterson, MD, MS & Rachel Morris, MD

Artificial Intelligence (AI) is revolutionizing healthcare with its potential to enhance diagnostics, streamline clinical workflows, and personalize patient care. However, as AI technologies proliferate, it is crucial to address the ethical implications of their deployment to ensure accountability and protect patient safety. This session will explore the ethical considerations, practical challenges, and strategies for responsibly integrating AI into healthcare systems through interactive case-based presentations and discussions. Attendees will be provided with introductory knowledge to responsibly consider integrating AI technologies into their practices, ensuring that the benefits of AI are realized without compromising ethical standards.

Introduction

Carrie Peterson, MD, MS

Case #1: Artificial Intelligence in Clinical Decision Making and Treatment Decisions

Nicole Meredyth, MD, HEC-C

Case #2: Artificial Intelligence in Education and the Operating Room

Grace Kim, MD

Case #3: Artificial Intelligence in Trauma

Krista Haines, DO, MA

Panel Discussion/Q&A

At the conclusion of this session attendees will be able to:

- Evaluate the ethical implications of using AI in various healthcare settings, including issues of bias, inequality, and transparency.
- Identify ways to protect patient safety when incorporating AI into practice and education.
- Recognize the concerns of accountability when incorporating AI into practice, including robust validation, continuous monitoring, and reporting and regulatory frameworks.

11:40 AM – 1:00 PM	Hot Topic Lunch Session: “Confronting the DEI Backlash: Finding a Path Forward” Moderators: Chelsea Dorsey, MD & Douglas Wood, MD	Agave Hall 1
	<i>Grab your lunch and join this session. There is increasing concern around the rapidly changing landscape of diversity, equity, and inclusion efforts in medical education. Since 2023 the number of anti-DEI state laws being introduced has increased exponentially with 9 states signing bills into law. At the national level, we are witnessing a politicization and reversal of progress on many fronts including admissions processes in higher education, women`s rights, transgender rights, and, most recently, DEI in medicine. In this Hot Topics Session, DEI leaders and institutional stakeholders will participate in an open discussion about how best to `confront` the current DEI backlash. The aim is to equip academic surgical departments and their leaders with the tools necessary to navigate this contentious space in a way that puts our surgical community in the best position to provide the highest quality and most equitable care to our most vulnerable patients.</i>	
	Introduction	Chelsea Dorsey, MD
	The Evolving Landscape of DEI Efforts: The Impact of DEI-related State and Federal Laws on Graduate Medical Education	Pilar Ortega, MD
	The Case for and Against Abandoning the Term `DEI`	Tracy Wang, MD, MPH
	A Practical Approach to Managing DEI Backlash	Randi Smith, MD
	Integrating Advocacy into Residency Training: Strategies for Success	Anthony Douglas, MD
	Advice for Practicing Surgeons interested in Functioning in the Advocacy Space	Brian Williams, MD
	Q&A	
	At the conclusion of this session attendees will be able to:	
	<ul style="list-style-type: none"> • Describe anti-DEI state and federal laws that have been introduced and passed around the country and how they impact medical education. • Outline the case for and against abandoning the term `DEI`. • Describe best practices for integrating advocacy into residency training. • Identify best practices for practicing surgeons interested in functioning in the advocacy space. • Develop a practical framework for managing DEI backlash. 	

11:40 AM – 1:00 PM

Hot Topic Session:

Agave Hall 2

“Going for FLARE: Financial Literacy Advancement and Resource Management for Surgeons”
Moderator: Ming-Li Wang, MD

Grab your lunch and join this session. During surgery residency training, there’s no formal financial literacy training, leaving many trainees unprepared for managing their finances when they transition to their first job as attending physicians. Residents, program directors, medical students, junior faculty, and any other stakeholders in resident training and physicians` well-being are invited to attend this session to navigate difficulties in understanding compensation systems, assessing the time value of money, and dealing with the financial burdens of residency and medical training.

Budgeting and Student Debt

Bryce Roberts, MD

The First Job

Martha Godfrey, MD, M.Ed

Retirement and Time Value of Money

Vinay Rai, MD

Q&A

At the conclusion of this session attendees will be able to:

- Identify and apply practical budgeting strategies to current career phase.
- Differentiate between RVU-based, Straight Salary, and Collection-based compensation systems.
- Apply the concept of time value of money to financial decisions.

1:00 PM - 2:30 PM

AAS Presidential Session:

The Theater

“Empowering Through Leadership Development – A Tool to Drive Equity and Inclusivity”

Moderator: Callisia Clarke, MD, MS

Panelists: Sandra Wong, MD, MS, Kmarie King, MD, MS, MBA, Douglas Evans, MD, Kelly Hunt, MD, Andrea Hayes-Dixon, MD

Nimble leadership development should focus on equipping leaders with the skills and flexibility to navigate the complexities of intersectionality, recognizing and addressing the diverse identities and experiences within their teams. By fostering an inclusive leadership style, this approach ensures that equity is prioritized, allowing for more tailored and effective strategies to support all individuals.

:

At the conclusion of this session attendees will be able to:

- Discuss leadership styles and how they impact teams.
- Recognize and address the diverse identities and experiences within teams.
- Foster an inclusive work environment.

“Authorship Equity in Academic Surgery”

Moderators: Barnabas Alayande, MBBS, PgDTh, MBA, FMCS & Olamide Alabi, MD

Authorship inequity remains a pervasive issue in academic surgery, with significant disparities evident across gender, race, academic level, and geographic regions. Despite advances in recognizing and addressing broader inequities in academia, authorship remains a critical area where disparities continue to undermine the integrity and inclusivity of surgical research. This session will bring together experts to discuss the inequities in authorship, highlighting specific challenges faced by underrepresented groups and proposing innovative solutions to promote fairness and equity. Topics will include double-blinded reviews, novel low-cost crowd-sourced open access publishing models like <https://jogs.one>, and the development of standardized authorship guidelines by journals.

Breaking Barriers: Achieving Gender Parity in Surgical Authorship

Mumba Chalwe, MD

Beyond Borders: Addressing Global Disparities in Surgical Research Authorship

Margaret Tarpley, MD

Climbing the Ladder: Navigating Authorship Inequities Across Academic Levels

Jaclyn Gellings, MD

Rewriting the Rules: Innovative Solutions for Authorship Equity in Surgery

Alexandra Istl, MD MPH

Q&A

At the conclusion of this session attendees will be able to:

- Identify Inequities: Recognize and describe the current inequities in authorship within academic surgery, focusing on gender, race, academic level, and global disparities.
- Explore Solutions: Evaluate potential solutions to mitigate authorship inequities, including double-blinded review processes and open access publishing models.
- Implement Guidelines: Discuss and advocate for the implementation of standardized authorship guidelines by academic journals to ensure fair recognition of contributions.
- Promote Inclusivity: Develop strategies to promote inclusivity and equity in authorship within their own research teams and institutional practices.

During this session, editors from 6 diverse surgery journals will share information about how journals are managed behind the scenes, including useful information for authors and peer-reviewers. This session will be of interest to surgical trainees and faculty alike. The journals represented in this session include JAMA Surgery, Journal of Surgical Research, Journal of Surgical Education, Surgery, American Journal of Surgery, and American Journal of Transplantation.

Introduction Melina Kibbe, MD

Behind the Scenes Look at Journal Publishing Melina Kibbe, MD

Panel Discussion: Understanding How Different Editors Triage Manuscripts

Panel Discussion: Perspectives on How to Artfully Respond to Reviewer Comments to Get Your Paper Accepted

Panel Discussion: What You Need to Do to Get on an Editorial Board

Panel Discussion: The Do`s and Don`ts of Communicating with a Journal Question and Answer

Q&A

Conclusion Melina Kibbe MD

- At the conclusion of this session attendees will be able to:
- Be able to articulate how peer-review surgery journals are managed.
 - Employ strategies to optimize engagement with peer-review surgery journals.

10:55 AM – 11:55 AM Basic Science Plenary Session The Theater

12:05 PM – 1:30 PM Committee Lunch Session Agave Hall 1

Interactive Mentoring Lunch to Advance Your Career for Medical Students
Moderators: Monica Dua, MD & Kevin Mollen, MD

Grab your lunch and join us for round tables with AAS/SUS leadership designed for topics in academic surgery at three different levels (medical students, residents, and junior faculty). This is an interactive session where hot topics for each level will be addressed to be able to understand the challenges in the next part of your career and how to navigate preparation for the next phase in your career. Each level will attend two different mentoring sessions during the lunch hour and have the opportunity to ask questions and network in a smaller group setting.

- At the conclusion of this session attendees will be able to:
- Organize a method to create wellness in residency and strategies for time management.
 - Recognize how to prepare a fellowship application and understand the basics of first job negotiations.
 - Plan how to organize financial income and assets to prepare for first time home purchase and retirement.

12:05 PM – 1:30 PM Committee Lunch Session Agave Hall 2

Interactive Mentoring Lunch to Advance Your Career for Residents, and Junior Faculty
Moderators: Monica Dua, MD & Kevin Mollen, MD

Grab your lunch and enjoy an interactive round table with AAS/SUS leaders who will discuss how to prepare for and navigate early career advancement as a resident or as junior faculty. The topics will facilitate understanding of transitioning into the next career phase by providing insights to future challenges and tools for successful navigation of those transitions. Each attendee will interact with two roundtables within the level appropriate to their career status, have the opportunity to ask questions and network in a small group setting.

- At the conclusion of this session attendees will be able to:
- Organize a method to create wellness in residency and strategies for time management.

- Recognize how to prepare a fellowship application and understand the basics of first job negotiations.
- Plan how to organize financial income and assets to prepare for first time home purchase and retirement.

“EPAs Beyond Engagement: Tools for Optimizing Your Feedback”
Moderators: Brenessa Lindeman, MD, MEHP & Karen Brasel, MD

Grab your lunch and join this Hot Topic Session which seeks to equip faculty with tools to utilize EPAs in order to up their game when it comes to providing feedback, based on real-world examples. The goal of this session will be to identify the lessons learned and highlight strategies for increasing both number of EPAs completed and qualitative feedback provided to surgery trainees.

Using EPAs as a Front-Line Faculty Member

Rebecca Williams-Karnesky, MD

Optimizing Your Use of EPAs as a Trainee

Erin White, MD

Maintaining EPA Engagement in Your Program

Amy Holmstrom, MD

Optimizing EPA Use as a Surgical Leader

George Sarosi, MD

Q&A

At the conclusion of this session attendees will be able to:

- Identify best practices for integrating EPAs into educational practice as a faculty member or learner.
- Describe tactics that trainees, faculty, and education leaders can use to maintain engagement using EPAs at their own residency programs.
- Analyze strategies for effective integration of educational innovation from a leadership perspective.
